Explanatory Note

SCOPE

1. The Index to Proceedings, consisting of the Subject Index and the Index to Speeches, is prepared by the Technical Operations and Publications Service of the Dag Hammarskjöld Library at United Nations Headquarters as a bibliographical guide to the documentation and proceedings of the thirty-fifth session of the General Assembly, including the Main Committees of the Assembly that met during the session, up to the suspension of the session at its 113th plenary meeting (11 May 1981). Index to later meetings and documentation of the resumed session will be issued as an addendum. The Subject Index has been issued as Part I.

INDEX TO SPEECHES

2. Part II of the Index to Proceedings contains the speeches and statements delivered before the General Assembly and its Committees by participants in the 35th session, including representatives of Governments, Heads of State, officers of the Assembly and its Committees, Secretariat officials, representatives of inter-governmental and non-governmental organizations, national liberation movements, and petitioners.

The Index to Speeches is divided into three sections: 1 -- speeches by representatives of Governments, including non-Member States, which are arranged according to the English alphabetical order of the name of the Government; 2 -- speeches by committee officers and Secretariat officials, which are arranged according to the English alphabetical order of the name of the committee or department the speaker represents; 3 -- speeches by all others not included above are listed by the English alphabetical order of the name of the organization they represent or by the name of the speaker if that speaker has been granted a hearing in his personal capacity and does not represent an organization. In addition, a separately paged section analyzing by subject the statements made in the general debate in plenary sessions is included.

In previous years, the Index to Speeches was included in a separate section of the manually produced Index to Proceedings. Henceforth, this portion will be compiled by the computer as an output of the United Nations Bibliographical Information System, UNBIS. Computerization of the Subject Index to the Index to Proceedings is under development.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

3. Documents and meeting records for each session of the General Assembly are numbered in separate series by session. The session is given in the symbol in Arabic numerals immediately following the indication of the body concerned, while the final element gives the serial number within the particular series concerned. For example, A/35/2 is the second in the series of main documents for the General Assembly at its thirty-fifth session and A/C.5/35/L.22 is the twenty-second in the series of limited distribution documents for the Fifth Committee at that session.

In the series of main documents of the General Assembly, the symbols A/35/1 to A/35/48 are the supplements to the Official Records of the General Assembly for the thirty-fifth session. Meeting records are numbered in a similar way. Thus the 1st plenary meeting of the thirty-fifth session of the General Assembly bears the symbol A/35/PV.1 while the record of the 10th meeting of the Second Committee at the same session is cited as A/C.2/35/SR.10.

The General Assembly in resolution 3415 (XXX) approved a set of criteria for the provision of meeting records of United Nations bodies. In accordance with these criteria, the verbatim records of the First Committee and the summary records of the other Main Committees of the General Assembly are issued in only one form (as Official Records of the General Assembly), and cover all discussions, whether substantive or procedural. Corrections to these meeting records are included in one Sessional Fascicle for each of the Main Committees, covering all meetings. The verbatim records of the plenary meetings of the General Assembly are issued initially in provisional mimeographed form for limited distribution, and later for general distribution in corrected printed form as Official Records.

Of the other documents, a few appear as printed Supplements to the Official Records (a fact always noted in this index), and the rest are issued in mimeographed form. Some of these, such as the reports of committees on various agenda items, are subsequently printed in the Annexes to the Official Records. Resolutions adopted by the General Assembly, first issued in mimeographed form, are collected in printed Supplements to the Official Records of each session. After their republication in the Official Records, provisional mimeographed documents are no longer available. Some double symbol documents (issued with both A/- and S/- symbols) are republished only in the Supplements to the Official Records of the Security Council.

4. Printed documentation of this session of the General Assembly may be obtained, or purchased from authorized sales agents, by requesting:

General Assembly, Official Records, thirty-fifth session

Supplement No. ... (specify supplement number) for documents issued in this form.
