INTRODUCTION

The General Assembly, composed of all Member States, is the main deliberative organ of the United Nations, and has the right to discuss and make recommendations on all matters within the scope of the Charter. The General Assembly meets once a year in regular session; special and emergency sessions are called as the need arises.

The Index to Proceedings of the General Assembly is a bibliographic guide to the proceedings and documentation of the General Assembly. This issue covers the thirty-eighth session as well as its Main and Ad Hoc Committees that met during the session. The Index is prepared by the Dag Hammarskjöld Library as one of the products of the United Nations Bibliographic Information System (UNBIS).

THE ARRANGEMENT OF THIS INDEX

The Index is issued in three parts. The first part consists of the following sections:

Sessional Information provides a list of officers, rules of procedure, resolutions and decisions and a checklist of the meetings of the General Assembly and its main committees which met during the year.

Agenda lists matters considered by and brought before the General Assembly together with the agenda item headings under which these items are listed in the Subject Index.

Subject Index provides topical access to General Assembly documentation. It contains an alphabetical arrangement of agenda subjects and provides for each a list of documents submitted to the Assembly and indicates the meetings at which the items were considered and the action taken by the Assembly.

List of documents lists documents arranged by symbol. It also contains information regarding the republication of mimeographed documents in printed Supplements to Official Records.

At the end of the first part is a Voting Chart of resolutions and decisions which were adopted by roll-call or recorded vote.

The second part of the Index consists of two sections of the Index to Speeches. The first is an index by corporate names/countries, the second an index by subject.

The third part of the Index consists of the third section of the Index to Speeches, an index by speakers.

DOCUMENTATION OF THE GENERAL ASSEMBLY

The symbols of all documents of the General Assembly begin with A/-, followed by the session number and an indication of the type of document or main committee to which it applies. The number following indicates the number of the document issued in that specific series.

For example: A/38/2 is the second in the series of main documents at its 38th session; A/INF.38/6 is the sixth in the series of documents in the limited series; A/C.2/38/14 is the fourteenth document in the general series for the 2nd Committee; and A/C.5/38/L.20 is the twentieth in the series of limited distribution documents of the 5th Committee.

In the series of main documents of the General Assembly's 38th session, the symbols A/38/1 to A/38/47 are the supplements to the Official Records of the General Assembly of that session.

Meeting records are numbered in a similar way. Thus the 1st plenary meeting of the thirty-eighth session of the General Assembly bears the symbol A/38/PV.1, while the fifteenth meeting of the Third Committee bears the symbol A/C.3/38/SR.15.

In accordance with criteria approved by the General Assembly for the provision of meeting records of United Nations bodies, the verbatim records of the First Committee and the summary records of the other Main Committees of the General Assembly are issued in only one form (as Official Record of the General Assembly), and cover all discussions, whether substantive or procedural. Corrections to these meeting records are included in one Sessional Fascicle for each of the Main Committees, covering all meetings. The verbatim records of the plenary meetings of the General Assembly are issued initially in provisional mimeographed form for limited distribution, and later for general distribution in corrected printed form as Official Records.

Of the other documents, a few appear as printed Supplements to the Official Records (a fact always noted in this index), and the rest are issued in mimeographed form. Some of these, such as the reports of committees on various agenda items, are subsequently printed in Annexes to the Official Records. Resolutions adopted by the General Assembly, first issued in mimeographed form, are collected in printed Supplements to the Official Records of each session. After their republication in the Official Records, provisional mimeographed documents are no longer available. Some double symbol documents (issued with both A/- and S/- symbols) are republished only in the Supplements to the Official Records of the Security Council.
